COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCT. 16.

UNDER any circumstances business here would be very quiet owing to the Dewali holidays, which commence to-morrow, but the quietness is materially increased by the continued adverse market advices received by wire from Europe. Linseed, of which available supplies are now very light, is the only important article of export for which any enquiry prevails, Wheat being most difficult of sale, and Cotton absolutely stagnant. Freights continue very depressed, the quotations to-day being 12s. 6d. to 13s. 9d. for Liverpool and 17s. 6d. to 18s. 9d. for Continental Ports, and even at these figures only a small quantity of cargo is offering. In imports there is simply nothing doing at the moment, but a more active state of things will set in with the Hindu new year, four days hence. Money continues easy. Sterling Exchange is weak and declining. Government Paper is dull. Shares are quiet, the position of our local Spinning Mills being still adversely affected by the Franco-Chinese complications.

MONEY.—The market remains quiet at unaltered rates of discount, the Bank of Bombay minimum being 4 and the outside market 3½ to 4 on Government paper, and 5 to 7 per cent. on other securities. The last weekly return of the Bank of Bombay showed a further slight increase in strength, and with the continued dulness in our export trade, we are not likely to see money much if any dearer this side of the new year, but if the position of our local Mills does not improve in the interval, there will be a rapid tightening up in rates when shipping season become active.

EXCHANGE.—Sterling has been very weak since the departure of last mail, and rates have given way 1d. per rupee. A downward tendency was already apparent the day last steamer left, so that we opened for this mail at 1s. 7 17-32d. for demand Bank and 1s. 7 23-32d. for 3 months' Credit bills, being a reduction of 1-32d. from Thursday's quotations. On Monday the Banks reduced their drawing rates for short dated bills 1-32d., and on Tuesday a decline of like extent was established all round. No further move occurred until to-day, when the advice from London that Government at the usual Wednesday's biddings had accepted 1s. 7 7-16d. for Rs. 6,40,000 of Council drafts and only 3 lacs of telegraphic transfer had been taken up at 1s. 7d., produced a very depressed feeling with a fall of 1-16d., closing quotations for ready paper being :—

Bank Bills on demand	1s. 7 7-16d.	per rupee.
Do. Telegraphic	1s. 7d.	,,
Do. Three Months' Sight	1s. 7 7-16d.	,,
Credits do. do.	1s. 7d.	,,
Do. Six do. do.	1s. 7 13-16d.	,,
Francs Three do. do.	2·07½	,,
Do. Six do. do.	2·09	,,

The Banks are buyers of private paper up to the end of the year at the same rates, but there are very few bills making, and looking to the depression in the home produce markets there is not much prospect of an improvement in this respect for some time to come, whilst imports should show increased activity after the holidays. This fact, coupled with the large amount of Council drafts Government have to place and the continued plentiful supply of Silver in London even at reduced values, promises badly for the immediate future of the rupee. We are no doubt at too low a level to admit of much of a fall, but we most certainly at the moment look like seeing a further decline before a lasting improvement sets in.

GOVERNMENT PAPER has ruled very quiet throughout the week with few fluctuations. Fours have remained very steady throughout at Rs. 99 to Rs. 99 1-16 closing at the latter figure. Fours-and-a-half opened at Rs. 102¾, but receded to Rs. 102½, and that to 3-16 may be called the closing figure.

SHARES.—As usual on the approach of the Dewali business in shares has become rather restricted and the transactions of the week have been small. *Spinning Mills* opened very weak owing to the telegraphic advices of continued hostilities between the French and Chinese, and for two or three days prices receded slightly. Two days ago a steadier tone set in with a partial recovery in rates which in many instances are the same as a week ago. We notice, however, a fall on the week of Rs. 25 in Gordons, Rs. 15 in Empress, Rs. 10 in Dhurrumsey, Rs. 7½ in Southern India, and Rs. 5 in Albert Edward. Hydrabad are Rs. 20, Manockjee Petitis Rs. 2½ higher on the week. *Press* Companies are firm. Fort are quoted Rs. 25, Mammoo Rs. 20, Bombay Rs. 15, and Berar Rs. 10 higher. Mofussils and New Indian are easier by Rs. 2½, Prince of Wales by Rs. 5. In *Banks* the only change has been in Bank of Bombays which advanced for a time to Rs. 762½ but close at Rs. 761½. Amongst the *Miscellaneous* list Bombay-Burmah Trading Co.'s shares have been the subject of most fluctuation, but they close at Rs. 4,825 the same level as they opened. Treacher and Co., Limited, are Rs. 5 lower at Rs. 1,175. Flour Mills are all firm. Bombay have recovered to Rs. 55 premium.

IMPORTS.

PIECE-GOODS.—At the date of writing business is virtually closed for the holidays, but during the earlier part of the week an active demand has prevailed, and from the bazaar the clearances are estimated at about 5,000 packages of all kinds. Stocks being liberal and accounts from Manchester weak, this has not exercised any quotable effect on prices, nor have dealers replaced by purchases to a like extent from first hands; but the prospects are in favour of a good demand developing after the holidays, the accounts from the large consuming centres pointing to the probability of a large consumption of goods at existing low prices.

TWIST.—For English Yarns the enquiry has been somewhat slack, and with dull advices from Liverpool and Manchester prices have shown a downward tendency. A decline of ¼ anna per lb. may be quoted all round, but more particularly in the higher counts of Mule. For local makes the enquiry has been temporarily improved by telegraphic advices of fair clearances in China, and transactions here for the week are put at about 2,000 packages. Prices, however, if anything, are rather lower at As. 5¾ to As. 6 per lb. for 20s.

METALS.—*Copper* is steady with a moderate business doing at pevious prices. *Yellow Metal* is also quiet at unchanged values. For *Iron* the enquiry continues very limited, and prices are only barely supported.

...continue firm owing to small shipments ...other side. Consumers are holding ...market as long as possible, but ...ly only provided for another ...oon have to come out as buyers ...ote for this month's shipment ...n's West Hartley Rs. 17, Car... after the end of the year

EXPORTS.

...TON.—The telegraphic advices from Liver... have been very dull throughout the week, and we have had quite a stagnant market here with a decline of Rs. 2 to Rs. 3 per candy. The local Mills being mostly but lightly stocked are obliged to buy steadily from day to day, but for export the enquiry is of the most limited character, the transactions reported being only some 2,000 bales in all. These comprise Dholleras at Rs. 179 to Rs. 183 for barely to strict Good, Westerns at Rs. 157 for Fully Good Fair, and Omras at Rs. 178 to Rs. 180 for barely Good. In new Cotton for future delivery business is very restricted. In Bengals we hear of Good having been done at from Rs. 147 to Rs. 145, Fully Good at Rs. 152 down to Rs. 150, and Fine at Rs. 160 per candy for December-January delivery, but in Omras and Broach the trasactions have been confined to a speculative sale and purchases between native dealers.

The movements of the staple continue small, but we may look for the figures assuming more importance after the Dewali, although supplies upcountry are not large.

Crop Accounts are now fairly satisfactory all round. The South-West monsoon came to an end about twelve days ago, and with seasonable weather henceforward we look for a good yield probably in excess of last season. The crop, however, is late, and there will be very little new Cotton except Bengals available for shipment this side of the new year.

The movements of Cotton to date show the following comparisons with the two previous years :—

WHEAT.—The home demand is as restricted as ever, and supplies, if not large, are up to an average. Prices, however, must be quoted slightly dearer owing to the decline in Freights and Exchange. We give No. 1 Soft White Pessy Rs. 25-8 to Rs. 26, No. 2 Rs. 24 to Rs. 25, Jubbulpore Rs. 22-8 to Rs. 23, Khatha Rs. 18-8 to Rs. 19, Ahmedabad Rs. 21 to Rs. 22 per candy. The receipts to date give the following comparisons :—

Since 1st January	6,535,323	8,846,968	6,075,935

SEEDS.—*Linseed* has been in strong demand during the week, and with lower freights and exchange the price has advanced to Rs. 6-5 per cwt., although supplies are fairly good for the time of year. New for April delivery is quoted at Rs. 5-11 to Rs. 5-12 per cwt. The arrivals give the following comparisons :—

	1884.	1883.	1882.
For the week	36,336	16,233	18,116
Since 1st January	3,798,091	4,008,419	2,733,345

Of *Rapeseed* there are almost no stocks. Yellow Guzerat is nominally quoted at Rs. 6-15 to Rs. 7-1 per cwt. for old ready and new for April delivery is Rs. 6-12. *Gingelly* is in fair request at Rs. 38 to Rs. 39 for White, Rs. 35 to Rs. 36 for Mixed, and Rs. 35 to Rs. 36 per candy for Red and Brown.

The foreign Consuls have been notified of hostilities, but not of a declaration of war. The Chinese coolies refuse to load coals on board French vessels. Boats take the supplies.

The French fleet, consisting of eleven ships, is off Matsoo Island. Seven thousand French troops are encamped in an entrenched position ashore.

Trade with all ports is very restricted. The Chinese are finishing the blocking of the entrance to Shanghai Channel. The foreign merchants are fearful of the consequences to the navigation of the river, and have forwarded a strong protest to the Pekin Government without avail.

Chinese recruiting is active.

DURING the week ending October 14 there were ten deaths from cholera in Bombay, against four in the corresponding week of last year and a mean of eight in the corresponding weeks of the last five years. Two of the deaths occurred among the Parsees. The other victims were four Hindoos, two Mussulmans, one native Christian, and one negro African.

FROM the Bombay Presidency Season Reports for the week ending October 15, it appears that there has been good rain in parts of Ahmednuggur, Poona, Dharwar, and Kaladgi; but more is still urgently wanted in several parts of the Deccan and Southern Maratha Country. The crops are withering in the eastern talukas of Poona and in parts of Belgaum. There is scarcity of fodder in several talukas of Dharwar and Belgaum. The kharif harvest and rabi sowing are in progress in several districts. Fever general; and there is cholera in parts of eleven districts, and small-pox and cattle-disease in a few places.

PORTUGAL will be represented at the proposed International Congress to settle the Congo question by Senhores Serpa, Count de Casal Ribeiro, and Viscount S. Januario.

THE Postal Congress, which was announced to be held in November next, is likely to be postponed until February, 1885.

THE Goa Government, in order to recoup the loss suffered through the reduction of the stamp duty, has adopted the extraordinary course of charging the value of the full value of the stamp duty, but also the extra sum of 4 reis for the cost of the paper. It may be remembered that the voters coerced the authorities into making the reduction by threatening to withhold their support from the official nominees at the recent general elections.

A COASTING vessel proceeding from Dwarka to Cochin has been wrecked off the coast of Goa. Four of the crew and eight dead bodies have since been picked up along the shore at Arambol, Paliem, and Tiracol. Another dead body, which has not been identified, has been found at Morgim.

YESTERDAY'S *Government Gazette* contains the orders made by His Excellency the Governor-in-Council with regard to the establishment of local boards in the districts of Sholapur and Colaba. Altogether seven taluka boards are to be established in Sholapur, and we observe that here again there will be a preponderance of nominated as compared with elective members. The district local board of Sholapur will consist of nineteen members, ten of whom will be Government nominees, while the remaining nine will be elected. In the Kolaba district six boards and one district board are to be constituted.

THE Government of India have been pleased to sanction the provision of free passages to England on board the Indian troopships for the families of officers of the rank of field officers who have proceeded with the Boundary Commission to Afghanistan. This concession has also been extended to the relations of such officers who are members of their families and dependent on them for a home. These passages, which are termed "non-regulation passages," are sanctioned with the proviso that the authorised complement of passengers on board the troopship are not exceeded, and that officers of lower rank and their families who would ordinarily be entitled to non-regulation passages are not excluded.

CONTINUED ill-health has necessitated a further extension of the leave granted to Mr. D. B. Jones, and the Allahabad paper thinks it is very doubtful, whether his place in the Central Provinces will see him again. Not by any means a robust man constitutionally, it is understood that he has lately received one of those warnings which are not to be disregarded against a return to India and the heavy duties of his office. Nor is there any reason to suppose that Mr. Jones was so much *en rapport* with the Central Provinces during the short time he was there that he will be inclined to make a sacrifice for the sake of returning to them. In the case of his resigning the appointment it would fall of course to Mr. C. T. Crosthwaite, whose stay for another year in the officiating capacity will be, as it is, a matter of general congratulation in the Commission.

UNLESS the Municipality of the city relents Madras will in a few days be the residence of the "great unwashed." The Madrassee dhobies have sworn it. It was lately resolved to levy a tax of one rupee on each dhobie exercising his profession in the town. This resolution having been communicated to the dhobies, a large number of them, about four or five hundred, have held a meeting to protest against this tax. The dhobies came to the conclusion that if the Municipality insisted on the tax being paid, they should strike work in a body.

THE hitch in Lord Dufferin's arrangements for reaching India forms the text of some remarks in the *Pioneer* on the pettiness of the system which allows the Viceroy to find his own passage in the mail-packet. In former times—when the Governor-General was in some sense not nearly so great a personage as he is now—a man-of-war used always to be placed at his disposal for the voyage. Lord Minto, for instance, not only came out and returned in His Majesty's frigate Modeste, but seems to have retained it during his stay very much as a superior form of yacht. Gradually, however, the practice has been allowed to fall into abeyance, and while custom still ordains that the departing Viceroy shall return home in a State vessel, his incoming successor is left to depend on the generosity and carrying powers of the P. and O. Company. "It is not easy to see the reason for the distinction" the *Pioneer* remarks; "but as long as Viceroys continue to choose the most unsuitable time of year for their arrival the difficulty may be expected to recur. The Indian Government with the best will in the world cannot do the proper thing while their few vessels are busily occupied in the trooping season, and probably have been somewhat put to it even to spare the Clive for Lord Ripon. But surely the Admiralty might be induced to spare one of all their unengaged ships for the purpose. The noise of the foolish few who raised the cry of expense when Lord Lytton was on his back in the Himalaya might safely be disregarded. There is only one Viceroy of India, and the country can at least afford to keep up his position."

OF the Viceroys of India, the first, Lord Canning, was English; the second, Lord Elgin, Scotch; the third, Lord Lawrence, Irish; the fourth, Lord Mayo, Irish also. The fifth, six, and seventh—Lords Northbrook, Lytton, and Ripon—were English; but now the appointment of the Earl of Dufferin re-establishes an Irishman on the viceregal throne.

A HOME paper announces that the Queen has been graciously pleased to confer the decoration of the Imperial Order of the Crown of India on Miss Edith Helen Ferguson, daughter of the Right Hon. Sir James Ferguson, Bart., K.C.M.G., C.I.E., Governor of the Presidency of Bombay.

Apropos of recent diplomatic appointments a contemporary has an interesting article on "Ambassadors," from which we take the following notes:—Napoleon summed up the whole duty of ambassadors in seven words:—"Tenez boune table et soignez les femmes." This was the opinion of an autocrat who carried on his own negotiations, and wished his envoys to be little more than special correspondents in foreign capitals. And yet properly to discharge even the comparatively humble functions of a collector and transmitter of news, it may be necessary to do something more than keep a good table and be attentive to women. As a rule, however, an ambassador has many duties to perform besides watching and reporting on the course of events. Not the least of these is the duty of maintaining the prestige of his country at the seat of the Government to which he is accredited. As Prosper Merimée observed: "States live a good deal on prestige." With England—the only great Power which is not also a first-class military Power—this is especially the case; and it must be confessed that her representatives have generally known how to hold their heads high even in troublous times. Hugh Elliot, who was British Minister at Berlin from 1776 to 1782, is famous for some witty answers he made to ill-natured remarks of Frederic the Great; but that which constitutes their chief merit is often forgotten. It was at a time when our armies were capitulating, our conquests being wrested from us, our flag scarcely able to maintain itself in our own seas, that the representative of England could speak proudly. Frederic has recorded in writing his frank admiration of the man who was generally believed to have administered to the King more than one homely lesson.

MILITARY NEWS.

LIEUTENANT CARTER, of the 1st Battalion York and Lancaster Regiment, officiating Wing Officer, 14th Regiment N. I., has been admitted to the Bombay Staff Corps.

PENDING the arrival of Brigadier-General G. Luck, C.B., from England, Colonel J. Galloway, C.B., Staff Corps, Commandant 29th Regiment N. I., has been appointed to officiate in command of the Sind district.

EXTENSION of leave for three months on medical certificate has been granted to Lieutenant-Colonel R. V. Malden, of the Bombay Staff Corps.

LIEUTENANT-COLONEL W. F. F. WALLER, V.C., Staff Corps, 2nd Assistant Political Agent in Kattywar, Joint-Administrator Sangli State, has been allowed furlough to Europe for twelve months on medical certificate.

IT has been decided that promotion from one grade to another in a department, or transfer from one staff appointment to another, does not carry with it any extension of an officer's five years' employment on the staff. It is presumed that this decision will equally apply to paid commandants of Volunteer Rifle Corps.

THE appointment of Colonel Bushman to the Adjutant-General's Department, says the *Pioneer*, is certainly one greatly to be commended, for having commanded a cavalry regiment for over four years he must be well versed in the requirements of British cavalry in this country. The new Adjutant-General never having commanded a regiment or battalion at all during his service, and not having performed regimental duty for many years, it would be well to have at head-quarters an officer who has commanded a British infantry battalion also for four years. This used to be one of the requirements for the post of Adjutant-General, but as that, as well as the language, has been waived in this instance, the appointment of an officer who has held such a command would certainly be beneficial to the Adjutant-General's Department and the service generally.

THE Indian Marine Troopship Clive, Captain W. J. Powell, arrived in Bombay harbour yesterday afternoon from Kurrachee, which port she left on the 14th October, with the following details:—1 officer, 22 rank and file, 1 woman and 1 child of the Gloucestershire Regiment; 3 officers, 1 lady, 1 child, Apothecary Price, 1 native officer, 2 men, 11 women, 12 children, and 18 followers, details from various regiments. The following are the names of officers:—Colonel Bolton, Bombay Staff Corps, Surg. Thompson, I.M.D., Surgeon. Hunter, A.M.D., Lieut Willcock, Gloucestershire, and wife and child of Lieut. Wilson, R. A.

TRICYCLES *VS.* BICYCLES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The letter from "Cyclist," in your issue of the 9th instant, urges me to send a few general remarks about cycles, which I omitted from my Neilgherry experiences for fear of making the article too long. In the first place, I may remark that I intended nothing "disparaging" to bicyclists when I stated that their vehicle was given over to "gymnasts and acrobats." The person who mounts a bicycle is, *ipso facto*, an acrobat, though he, or she, may never have donned the spangles, or startled a modest community, as the French lady did, a short time ago, on the boards of the Gaiety Theatre, Bombay, by riding in aboriginal nature. I can ride a bicycle myself very well, so cannot be considered prejudiced against the machine on the score of not knowing how to handle it. I simply intended to suggest that the tricycle is safer for general use.

The very first cyclist, I take it, was Ixion, condemned to ride a unicycle, or icycle as some people call it, for flirting with Juno. Some years after that trouble, viz., in A. D. 1779, a velocipede with either three or four wheels was exhibited in Paris. In the year 1818 a gentleman with the pretty name Nicephore Niepce brought out the Hobby Horse, the oldest ancestor of the bicycle. Only thirty years after that, in 1848, I was myself riding velocipedes on four wheels, all about the city of Bath, Somerset. The hire, 3d. per hour, ran away with the bulk of my pocket-money. In 1863 I purchased an exceedingly go d tricycle called the Rantoone, and rode many miles on it in this country. It was a foot and hand lever machine, grand as a locomotive gymnasium, and would have become very popular if the maker had not gone bankrupt from speculating in other articles. Before breaking, he was good enough to publish my portrait, seated on his invention and astonishing the natives, in the *Field*, where it may still be found, if there are any numbers dated June, 1867, yet in existence. I keep a Rantoone, even now, in my cycle-khana. It was not until the year 1868 that the present bicycle began to come to the front. It was an uncomfortable animal to tackle then, and even now, with all the joints rubber-cushioned, as in my Matchless, since the rider sits right over the driving wheel, his vertebræ are apt to become scarified, and jammed on to his bump of philoprogenitiveness when the road is rough. This may appear bunkum, but it is not. Some years ago when, I suppose, railway carriages were not so springy as they are now, it was found that people who travelled from and to Brighton daily were getting diseased spine from the constant vibration. As riders of the bicycle multiplied they began to fall about, and pleased the surgeons by originating a new class of compound fracture. This was discouraging, but the exercise on wheels having been found pleasant, people with muscle stirred up people with brains to invent or reinvent a safer conveyance; then the tricycle came forth, and has flourished exceedingly. "Cyclist" does not like the word acrobat, but he may not object to athlete. He is certainly an athlete, and an excessively lucky one, to have ridden 50,000 miles without an accident. Some assurance offices have declined to issue policies to bicycle riders. These things being considered, the tricycle is, obviously, the carriage for the crowd. Women and their grandfathers can ride the three-wheeler; it gives to both that exercise which they formerly did not take to kindly on their feet, in the form of a common or garden constitutional. Tricycles (with lawn-tennis) will certainly, by hardening the soft sex, improve the coming race. The bicycle will have no credit in this matter, as prospective fathers, before its introduction, kept themselves fit by the pursuit of other noble sports. Taking the *bonâ fide* road riders, either for business or pleasure, I think it will be found that the majority are tricyclists. The bicycle is a beautiful machine for its purpose; and the claims which "Cyclist" makes for it are quite fair ones. It goes fast and far, and can be manœuvred along a very narrow strip of road by an adept; but do the greater number of people sigh for these advantages at the expense of those calm pleasures which are found in loafing about? I think not. I have attended weddings and other popular ceremonials in the native town of Bombay, seated comfortably on my tricycle, in the middle of a crowd which a bicyclist could not safely enter. In avoiding some car of Juggernath on the right side, he would be sure to meet calamity on the left, and perhaps roll over Maharajahs, Khojahs, and other potentates like skittles. They would not like this, and the bicycle would fall in public estimation. Your correspondent has clearly squeezed a lot of fun out of his mount, and I hope that he may get much more; but when he is aged and grey, or afflicted with a superabundance of adipose tissue, I should not wonder if he felt inclined to unscrew for a statue to the man who invented tricycles. As the first villain says in most burlesques, "The time will come, ha! ha!" But I do not pine for argument; I only wish ordinary people to ride the tricycle, because I know that it would do them good; and if I do not make out a good case for it, they will go investing in bicycles, and hurt themselves.

"Cyclist" says, speaking of bicycles, "Over 200 miles in 24 hours has frequently been accomplished." Quite right; but, he also says, "The tricycle falls far short of these figures." On the 7th July, 1883, T. R. Marriot ride on a tricyle nearly 219 miles in the 24 hours; and on another occasion, in the same year, a man named Bird, also on a tricycle, rode 221 miles in the same time; so we are not so very far behind. Your correspondent rather smiles at my doing only 2½ miles an hour. I travelled, in fact, as may be seen from my account, only 1½ miles an hour; but he does not seem to have noticed that there were 16 miles of steady up-hill on a gradient of one in eighteen, with a bad road surface. If "Cyclist" inhabits Bombay he may know Harkness Hill, sloping towards the sea from the crest of lordly Malabar. Let him imagine a few tons of loose stones shaken here and there over that hill, and he will understand the kind of road which I had to climb. I myself weigh 190 pounds, the Omnicycle (pattern of 1881) weighs 120 pounds, and I have 10 pounds of luggage, total 320 pounds; driven up over 5,000 feet, beneath a vertical sun. It was no dude's picnic, and I should not like to race up any faster. (Note the Omnicycles of 1884 weighs only 95 pounds.) Certainly some people would prefer to walk it, but personally I intend to have another ride up, if ever I visit those placid scenes again.

Touching the merits of the different tricycles, "Cyclist" has probably had more practical experience than I have, since, with the exception of a three-month's fly, I have not been to Europe for thirteen years. I have tried, besides the Omnicycle, only the Humber, the Cheylesmore, and the Salvo; and on neither of these machines should I care to attempt a ride of eighty miles in one day in this country. I did it last year, at the end of march, on my own machine, from Poona to Khandalla and back. The Neilcherries could certainly not be negotiated on either of them. Being an amateur mechanic, I have judged other machines by their portraits, and description of their internals, and have always retained my first faith in the Omnicycle. Within the last few days I have received a useful book called "Tricycles of the year 1884," by Griffin, and find that my confidence was not misplaced. Has "Cyclist" seen the very newest Omnicycle? It seems to me to be now quite perfect. It had one or two defects, but these have been remedied. That it cannot be worked backwards is a clear advantage when going up-hill, and is no drawback on the flat. Listen to Harry Hewett Griffin. He says, "Undoubtedly tricycles have taken the premier position in the world of wheels." Again, he remarks, "Despite the multitudinous novelties which have been brought out during the last three years, the Omnicycle holds its own as one of the best machines of the day. It is certainly a feather in the cap of the inventor (T. Butler of Wokingham) to have designed the original hill-climber, and for it to have been so signal a success." Once more, concerning the Omni, Griffin says. "Of the whole machine we can speak in terms of the highest praise, as one of the best tricycles of the year. It will climb almost any hill and is very fast on the flat, whilst the action is less tiring than ordinary, and is specially suited to ladies."

There is a new tricycle, which seems very promising, called the Merlin. The Matchless should also be interviewed, as well as the Traveller, No. 2. The Humber is the fastest machine, but is unsuitable for crinoline. Had it been invented sooner, the old lady who went to Banbury Cross upon a white horse might have used it, and so might Mrs. Bloomer. Several people in my neighbourhood are yearning to know which is the very best tricycle, before buying, and we shall all be much obliged for any further information that "Cyclist" can give.

THE GENERAL WADDINGTON FUND.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—More than a year ago I was asked to subscribe to the General Waddington Memorial Fund, and I contributed my mite accordingly. But, strange to say, I have not heard since then a word from the originators of the movement, either about the fundf or the use, if any, made of it. This silence on their part is greatly to be deprecated, and, I am sure, they will see the justice of taking the subscribers into their confidence and letting them know without delay how their money has been or is to be used.

PRIVATE PRACTITIONERS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—From the report of the last meeting of the Town Council about the appointment of paid assistant surgeons to the Goculdas Tejpal Hospital, Dr. Blanc appears to have stated that the Surgeon-General was probably not cognizant of the fact that there were also graduates engaged in private practice who could do the work to satisfaction, and that there were competent men among the civil practitioners here to whom an opening of this kind should not be denied. Dr. Blanc deserves the thanks of these private practitioners for thus bringing them before the notice of the officials, who seem to ignore a worthy class of medical men, working with studied zeal for the benefit of suffering humanity. Allow me to say, sir, that if any class is entitled to this distinction, at this juncture, it is this class of private practitioners. Dr. Blanc, who sometimes prove highly useful in elucidating obscure diseases which sometimes break out in our midst? Bombay, overcrowded as it is, imports largely various diseases from different quarters of the world. These diseases, thus imported, are much modified in their character and phases. To study them, those who practise in Bombay are better situated than their brethren outside.

Now, sir, as regards the salary proposed by Dr. Blanc. It is very curious that a Surgeon-Major of Dr. Blanc's standing should think so very low of the income of these practitioners. He has been noticing the fact in his daily consulting private practice that private practitioners of even 12 years, and four years' standing earn twice, if not treble, the sum recommended as the maximum in his proposition. Even some surgeons of H.M.'s Army of this standing could hardly cope with private practitioners in this respect. The private practice of the present day is dearly bought, especially when there is so much competition in the town, and I do not think any competent medical man would sacrifice it for such a fee as Rs. 125. What the private practitioners will think of Dr. Blanc, who wishes to raise their status on cooly wages, is left to be seen. The Surgeon-General seems to have exercised great discretion in not viewing the question in the same light. The Town Council will have to reconsider the question if they want competent men, or they will have to fall back on fresh men from the Grant College.

ASSAULTING A MOBED.—The case in which Dinshaw Rustomjee Bazaarwalla and his son Cursetjee Dinshawjee were charged with grievously assaulting a mobed named Norojee Cowasjee Hoodar was called on yesterday before Mr. C. P. Cooper. Mr. Bhaishunker, who appeared for the complainant, stated that the accused had tendered a written apology to his client, and therefore he was unwilling to proceed with the case. The accused had agreed to pay the costs of the complainant. His worship accordingly dismissed the case.

STEALING A PAIR OF SHOES.—At the Fort Police Court yesterday, before Mr. Cooper, Girdhar Rupun, a young Brahmin, pleaded guilty to a charge of theft of a pair of shoes. The owner of the shoes, a Brahmin, had entered a temple at Booleshwur to pray, leaving his shoes at the door. After his prayers—which were longer than usual, as he had arrived there on the occasion of one of his periodical fits—with safety—he looked for his shoes in vain. He made his way to the nearest police station, and there found the accused in the custody of a sepoy, with the shoes in his possession. The prisoner was fined Rs. 5.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended Saturday, 11th October, was 366, being 40 more than in the previous week, 139 more than the week ending 13th October, 1883, and 95 more than the mean of the corresponding period in the preceding five years. During the week 304 births were reported in the different districts of the city. The rate of mortality per 1,000 of population per annum was 29·90, calculated on the increase of population since 1881. There were 100 deaths from remittent fever, 5 more than the previous week, and 5 more than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentry were last week 89, 20, and 16 respectively, as compared with 52, 21, and 8 in the same time last year. 10 deaths from cholera were registered last week as compared with 5 in the week previous.

AN ILL-BEHAVED VILLAGE.—His Excellency the Governor in Council considering that, in consequence of the conduct of the inhabitants of the village of Kharod in the Ankleshvar Taluka of the Broach District, in suppressing evidence of a murder which occurred in their village, it is expedient to direct the employment in the said village of Kharod of a police force in excess of the ordinary force quartered in that part of the district, is pleased, in exercise of the powers conferred by section 16 of the Bombay District Police Act, 1867, hereby to direct that an additional police force of the strength and cost mentioned below be employed in the village of Kharod for a period of one year, and that the cost thereof be defrayed by a local rate charged on the said village:—Cost per mensem for one head constable, fourth class, Rs. 12; four constables, third class, Rs. 32; Rs. 528 per annum; clothing and supervision charges, Rs. 63-5-9; hutting money, Rs. 10; total annual cost Rs. 601-5-9.—*Government Gazettes.*

ENGLISH EDUCATION FOR NATIVE GIRLS.—Poona has now a Native Girls' High School, thanks to the generosity of Sir W. Wedderburn and of the Mahratta chiefs, who have come out so handsomely on this occasion. Rs. 98,420 have been subscribed, and the Government have promised every reasonable aid. We in Sindh have not a single English school, far less a High School, for girls; but our Educational Inspector is sincerely anxious to do something in this line, and we trust it will not be long before an English school for girls in Hyderabad is a *fait accompli*. Some time ago a fund was started to commemorate the services of the late Mr. Udharam to education, and another fund is now being raised to perpetuate the memory of Mr. Keshavrai Bapujee Bal, who so long and so ably served in Hydrabad and Kurrachee as head-master of the High School. We would recommend that these two funds be utilised in creating some prizes and scholarships for the girls in the proposed English school. Sindh is too poor to pay all the expenses of such a school, but we can do something to afford inducements to girls to study in it, and to remain sufficiently long in it to acquire solid instruction.—*Sind Times.*

THE ALBERT PRESS COMPANY.

THE fifth ordinary general meeting of shareholders of the company was held yesterday at its registered office, Dalal-street, Dr. Ardasir Jamsetjee Bhajeewalla, chairman of the board of directors, presiding. The directors, in their report for the year ending 30th June, 1884, stated that the total number of bales pressed during the year was 36,127, being 6,412 bales less than the preceding year, for the reason that the export of cotton from Kurrachee to this port was made in loose bales in large quantity. The net profit was Rs. 24,416 12-4. The directors' report and the audited balance sheet and profit and loss account were adopted and approved. A dividend at the rate of Rs. 100 per share was made payable from to-day. Dr. Hormujee Bejonjee Mantra and Mr. Jehangir Hormujee, who retired by rotation, were re-elected directors. Messrs. Pallonjee Framjee Mehta and Merwanjee Framjee were elected auditors at a remuneration of Rs. 125 each. The thanks of the meeting were tendered to the chairman, the directors, and the secretaries and treasurers for the satisfactory manner in which they had conducted the affairs of the company; and the proceedings ended with a vote of thanks to the chairman.

ALLEGED SERIOUS DEFALCATIONS BY A EUROPEAN.

THE case in which Walter Bennett Williams, late manager of Messrs. Latham and Co., is charged, at the instance of Mr. Latham, before Mr. C. P. Cooper, with criminal breach of trust, was resumed yesterday at the Fort Police Court.

Mr. Chalk, of the firm of Chalk and Walker, appeared to prosecute. The accused said that Mr. Payne had been retained for the defence, and had attended the court on Wednesday after the postponement of the case; but his funds would not allow of his again obtaining professional assistance.

Mr. Latham's examination was then continued. His evidence generally supported the statements made by Mr. Chalk in opening the case.

At the conclusion of Mr. Latham's evidence the accused was asked if he had any questions to put.

He said he had not, because he first wished to obtain a thorough examination of the books by an experienced accountant. For this reason, he asked that the case might be postponed for a week or a fortnight.

His worship, addressing Mr. Chalk, said it would be best to select two or three items from the books and prove them.

Mr. Chalk said he intended to do so.

The case was then proceeded with, his worship allowing Mr. Latham's request to sit in the dock by the accused to stand over till he was ready.

Two witnesses—the accused's servant and a shipping clerk—were called. The former deposed to having received the cash-box and various other keys from his master, and having made them over to the clerk. The cl

FOR NERVOUS DEBILITY, NEURALGIA,
AND OTHER
DISEASES OF THE NERVOUS SYSTEM,
H. AND T. KIRBY & CO.'S
ORIGINAL PHOSPHORUS PILLS
ARE THE BEST REMEDIES.

THE Restorative power of Phosphorus is MOST REMARKABLE. Cures are effected by the following Preparations in cases which have resisted all other medicines. In these forms Phosphorus is as harmless as Quinine, while its effects on the nervous system are far more beneficial.

SIMPLE PHOSPHORUS PILL, No. 1.

This Pill affords considerable relief when the system is jaded and worn by unusual strain or temporary nervous exhaustion. In cases of despondency and grief its EXHILARATING and ENERGIZING effect is most marked.

PHOSPHORUS AND QUININE PILL, No. 3.

This is a valuable Restorative. It acts as a nutrient to the entire nervous system, giving POWER TO THE BRAIN and spinal cord, and to the functions presided over by them. It gives tone to the DIGESTIVE ORGANS, and improves the condition of the whole body.

PHOSPHORUS AND NUX-VOMICA, No. 6.

This Pill is especially useful in Atonic Dyspepsia and Lowness of Spirits arising from overwork. It is a useful STIMULANT also in cases of functional impotence in prematurely aged and debilitated subjects and to remedy the effects of excesses.

PHOSPHORUS, IRON AND CANTHARIDES No. 30.

This Pill is especially useful in Chronic Urethral Discharges in Atony or Paralysis of the Bladder, and in the same cases for which PHOSHORUS and NUX-VOMICA PILL No. 6 are found useful.

COMPOUND PHOSPHORUS PILL,

Composed of Phosphorous, Iron, Quinine and Nux-vomica.

This is an invaluable remedy for nervous diseases characterized by DEBILITY, POVERTY OF BLOOD, and LOSS OF NERVE POWER. It cures NEURALGIA, LOWNESS OF SPIRITS, and other manifestations of Nervous Exhaustion, very rapidly. Brain-workers, Clergymen, Professional and BUSY COMMERCIAL MEN, who are habitually overworked, derive great benefit from a course of this combination of tonics FOR CONVALESCENTS FROM FEVERS and other exhausting diseases, this is a powerful RESTORATIVE

CAUTION.—Messrs. H. & T. KIRBY & Co. have to caution the Medical Profession and the Public against SEVERAL IMITATIONS of their well-known preparations. Some of these are made with POWDERED PHOSPHORUS, and are EXCEEDINGLY DANGEROUS, while others are perfectly INERT. Every bottle of Kirby's genuine Pills bears the Trade Mark and Signature of their Firm.

KIRBY'S SAL MINERALIS,
A TASTELESS APERIENT SALT,
AN EXCELLENT SUBSTITUTE FOR
FRIEDRICHSALL, PULLNA, HUNGARIAN AND OTHER MINERAL WATERS.

This salt is more convenient, portable, and efficient than the German Waters. It may be taken in all cases in which they are beneficial. As an Aperient it is SIMPLE, MILD, SAFE and EFFECTUAL For GOUT, GOUTY and RHEUMATIC AFFECTIONS and in PLETHORIC CONDITIONS of the System. TORPID LIVER and PILES, it is the BEST Aperient. For Habitual Constipation it is a good remedy.
